c.1879

THESE PAINTS ARE READY FOR THE BRUSH.

LYON'S ASBESTOS PAINT CO.

PATENTEES AND MANUFACTURERS OF

ASBESTOS PAINTS,

84 Bank Street, New York. 174 East Fifth Street, Cincinnati, O.

LYON'S ASBESTOS PAINTS are manufactured from that *indestructible fibre, Mineral Asbestos.* It is through the peculiar fibre of Asbestos the component parts of our Paints are held together, imparting that *toughness and flexibility* so especially adapted for any yielding surface. It covers *all surfaces* with a *strong, tough membrane,* that is *unaffected by acids,* and *water cannot penetrate.* Practical tests, and long experience have proven this Paint *far superior* to all others for *wear and durability.* Being a perfect *non-conductor,* not affected by *acids, non-corrosive,* its *strong, adhesive qualities,* etc., make it the *best* protection for all *iron work,* such as *Bridges, Truss Work, Metal Roofs, Car Roofs, Iron, Tin, Wood or Canvas, Freight or Box Cars, Depots,* etc. We, therefore, offer it as the *best, most desirable and economical* Paint for *general railroad use.* For *steamboat* and *vessel* covering, it has *no equal,* being specially adapted to *roofs* and *decks,* on *canvas* or *wood,* always *pliable, hard,* yet does not crack, and rendering them *water-proof,* and will stand more *wear* than any other paint. It is, without question, the *best and only reliable steamboat Paint in use,* for fresh or salt water. For every class of *house painting* this Paint is *unexcelled.* For *brick, stone, wood or iron,* experience has proven it to be *reliable* in every way. It adheres tenaciously to all surfaces, a cure for damp walls, *no moisture will penetrate.* For *painting roofs of tin, iron, duck, shingle or wood,* it is the only paint possessing all the desired qualities. We, therefore, present this Paint with *perfect confidence* that it *possesses more intrinsic merit,* and *desirable qualities* for all *general uses* and purposes than *any other* material in the market.

TO BRIDGE BUILDERS AND CONTRACTORS:

We call your attention to this Paint as *especially* adapted for *covering Iron and* will *wear longer* and give better satisfaction than any other material. It is impervious to water, leaving a *hard smooth finish.* Its covering capacity *greater* than other Paints, and is applied with ease. These Paints are furnished "*Ready for the Brush,*" *no mixing, no trouble,* and no *dregs or waste* as in other Paints.

We offer you these Paints at special low figures, and we confidently believe *less* than any other Paint can be made, viz:

The Asbestos Paint for Bridges, Iron and Rough Exterior Work, (a Dark Red or Brown Color,) in barrels, - - - - - - - - - - at.....per gallon.

White, and ordinary fine colors, for any class of work, in barrels, - - - at.....per gallon.

☞ IN SMALLER PACKAGES, EXTRA CHARGE. ☜

OFFICE OF

Lyons Asbestos Paint Co.,

84 BANK STREET,

New York, October 6th, 1879.

Dear Sir:

Having severed my relations as Master Car Painter with the Gilbert and Bush Co. (Troy Car Works) of Troy, New York, I now take pleasure in stating that I have connected myself with the

Lyons Asbestos Paint Co. of New York,

As SUPERINTENDENT.

I had occasion to thoroughly test the Patent Asbestos Paint made by them, while I was with the Gilbert & Bush Co., and unhesitatingly recommend it as the best and most durable paint manufactured for Car Roofs, Freight Cars, Depots, &c. I shall personally superintend and give particular attention to the manufacture of Coach and Car Colors, which I shall use every endeavor to have in all respects unsurpassed in excellence. All orders which you may favor us with will be duly appreciated by

Yours Respectfully,

H. P. BENNETT.
